OCV Oil Control Valves Replacement 24355-2B700 Metal + Plastic Material

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 24355-2B700
- Minimum Order Quantity: 10 PCS
- Price: \$4.85 ~ \$5.87
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 1000 pcs per day

Product Specification

- Valve Type: Oil Control Valves
- Warranty: 24 Months
- Material: Metal + Plastic
- Temperature Range: -20°C To +120°C
- Engine Capacity: 2.0/2.4
- Packaging: According To Customers' Requirements
- Application: For Hyundai
- Highlight: **OCV Oil Control Valves,**
Oil Control Valves Replacement, 24355-2B700

Product Description

24355-2B700 24355 2B700 VVT Oil Control Valve for 2011-2014 Hyundai Santa Fe Tucson Optima

Product Description:

The **Oil Control Valve**, or **OCV**, is an extremely essential part of any vehicle's engine. It functions to *control* the amount of oil that is *streamed* to each of its components; this process is generally put into effect by the engine management system. By controlling the amount of oil passing through the system, the OCV contributes significantly to keeping the oil pressure and timing of the engine at a desirable level.

In short, the correct operation of the OCV is and critical to the success of a vehicle's engine.

Features:

Our oil control valves (OCVs) are designed to precisely control the flow of oil to various engine components. This helps ensure that the engine's vital parts receive proper lubrication and performance.

Our OCV also maintains proper oil pressure in engines with variable oil pressure systems. This is accomplished through precise regulation of the oil flow, which makes sure that oil pressure remains consistent and optimally delivers lubrication, cooling, and protection. Moreover, our OCV features a robust housing and high-quality internal components for maximum engine performance. This ensures durability, anti-corrosion protection, and long-lasting performance so you get greater value for your money.

Finally, we designed our OCV for easy installation. Compatible with your vehicle's original equipment, it is a direct fit replacement that mirrors the precise specifications and mounting points of your vehicle's make, model, and engine. This makes installation quick and hassle-free.

Support and Services:

Oil Control Valves Technical Support & Services

We provide technical support and services for our oil control valves. Our team is available to help you with installation, maintenance, and repair. We also provide advice on the best approach for your particular application.

Installation

Our team can help you install your oil control valves by providing instructions and advice on the best way to do it. We can also provide assistance if you are having any difficulty getting the valves up and running.

Maintenance

Regular maintenance is essential for keeping your oil control valves in good working order. Our team can provide advice on the best approach for keeping your valves running smoothly and efficiently.

Repair

If you experience any problems with your oil control valves, our team can help you diagnose and repair them. We can provide advice on the best way to fix the issue and get your valves back up and running.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
