JB3G8A616AC Cooling Fan Clutch For Automobile Spare Parts Components Ford Ranger

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: JB3G8A616AC
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Product Name: Cooling Fan Clutch
- Size: Standard
- Warranty: 12 Months
- Highlight: Automobile Spare Parts,
JB3G8A616AC Automobile Spare Parts,
Ford Ranger Automobile Spare Parts

Product Description

Product Description:

The cooling fan clutch can usually be found situated in the space between the engine and the radiator of a vehicle. This component is directly connected to the blades of the cooling fan.

Its main features include:

A bi-metallic coil spring that responds to changes in temperature.

A thermal sensor which detects the heat levels within the engine bay.

A viscous fluid coupling that allows for the engagement and disengagement of the fan.

Features:

Fan Clutch: Engineered for Efficiency and Durability

Precision Temperature Control

At the heart of our fan clutch lies a precision-engineered thermal sensor, meticulously designed to monitor engine coolant temperature with remarkable accuracy. This advanced technology ensures that the clutch engages and disengages at precise moments, maintaining optimal engine temperatures for efficient cooling while avoiding excessive power usage.

Optimized Cooling Efficiency

Engineered with durability and cutting-edge technology, our fan clutch enhances the radiator's airflow. By boosting the volume of air passing through, our clutch facilitates more effective heat dispersal, safeguarding your engine against the risks of overheating and helping to maintain the ideal operating conditions.

Uncompromising Construction Durability

We prioritize endurance and performance by selecting only premium materials and adhering to meticulous manufacturing protocols. This rigorous approach ensures our fan clutch is capable of enduring the rigors of everyday use, extreme temperatures, and challenging environments, reaffirming its place as a steadfast component in your vehicle's cooling system.

Smooth and Hushed Operation

Experience tranquility behind the wheel, courtesy of our fan clutch's exceptionally smooth and quiet operation. It has been refined to reduce vibrations and diminish noise levels significantly, thereby enhancing overall driving comfort and providing a serene vehicular environment.

Performance-Driven Design

Our fan clutch is more than a component; it's a testament to performance-oriented design. It leverages the cooling capabilities of your radiator, paving the path for your engine to operate at the pinnacle of efficiency. This proactive cooling solution not only elevates engine performance but also plays a vital role in preempting overheating-related damage.

Applications:

A **cooling fan clutch** is an essential mechanical component found in vehicle engines. It plays a crucial role in managing the activity of the engine's cooling fan.

The primary function of this device is to dynamically adjust the fan's rotational speed based on the engine's temperature. This ensures the engine operates within its optimal temperature range, preventing it from overheating.

In essence, the fan clutch engages or disengages the cooling fan, enabling precise control over the engine's cooling process. Its design helps maintain engine efficiency and prolongs the life of the engine by addressing its specific cooling requirements.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
